Oil & Gas Conservation  
Commission

Department of Natural Resources

## Inspection Photos

Location Name: SHEFFER JACK #1

API: 05-069-05014

Google Earth aerial imagery from 8/8/2012 illustrating the depressed area (red circle) that was identified as the well from a previous inspection. A partially buried flowline appears to travel south from the depressed area, then has a T-connector west of the house that then connects into the house. The flowline appears to continue south from the T-connector west of the house.

**Photo 1.** Photo taken from the depressed area, facing North. A partially buried flowline from this setup appears to be connected to the house illustrated in the previous aerial photo.

**Photo 2.** Photo taken east ~10' east of the depressed area, facing West. A partially buried flowline from this setup appears to be connected to the house illustrated in the previous aerial photo.
