Detailed description of the issue or issues.	,Observed a white tanker truck on the access road driving toward the Waste Connections pad site while picking up kids from camp at 3:05 PM today. Within minutes of the vehicle entering the sound walls, the fuel/diesel smell returned at my home, and by 3:20 PM it was (again) quite strong in my front and back yards. This is becoming a clear pattern that when CDPHE and/or COGCC responds, Crestone is "normal" operations, and the noxious scent is occurring while they are performing something that exposes their drilling chemicals to the open air.
Type of Complaint (Click all that apply)	Air Quality/Odor
