Comment:

It appears the wells were recently plugged and abandoned. All the equipment has been removed from the location. There is a wooden post at the center of the location. The surrounding landuse is currently cropland however the variance indicates a landuse change to development. The variance request did not specify the type of development or when development will occur. The location will need to be maintained for erosion and weed control. See Attached Photos

Comment:

There is insufficient stormwater controls in place and there are signs of stormwater erosion. There is also a potential for wind erosion to occur. See Attached Photos

Corrective Action:

Install or repair required BMPs per Rule 1002.f.

Date: 07/07/2017

**Pits:**  NO SURFACE INDICATION OF PIT
