439366	WELL	SI	06/08/2016	OW	043-06227	Columbus 1	EI

General Comment:

This is an environmental inspection. Any corrective actions from previous inspections that have not been addressed are still applicable.

Operator has improperly stored fluids and non E&P waste leaking on location (see attached photos).

At the time of inspection on 6/1/2017 sediment control BMPs were not installed correctly. Straw wattles have been laid on top of ground, are inadequately staked and will allow runoff to flow under the BMPs.

Comment: Pursuant to Rule 1002.f., Aus-Tex Exploration Inc. shall implement and maintain Best Management Practices (BMPs) at all oil and gas locations to control storm water runoff in a manner that minimizes erosion, transport of sediment offsite, and site degradation.

At the time of inspection on 6/1/2017 sediment control BMPs were not installed correctly. Straw wattles have been laid on top of ground, are inadequately staked and will allow runoff to flow under the BMPs.

Corrective Action: Install or repair required BMPs per Rule 1002.f. Refer to the 1002.f guidance document for further details.

Date: 06/30/2017

Pits: NO SURFACE INDICATION OF PIT

COGCC Comments

Comment	User	Date
Follow up inspection required to document spill cleanup and proper installation of sediment control BMPs.	kosolaj	06/02/2017
