Open cellar in place housing PA Marker was filled with water at time of Inspection with one dead rodent floating; grate cover is at bottom of Cellar. Re-contouring has not been done, gravel, Debris, equipment, soil/material piles remain on site. Soil piles & site are populated with Noxious Weeds, Thistle & Houndstongue. All debris, abandoned gathering line risers, and flowline risers, and equipment should have been removed within three months of plugging (11/2/1981). All Reclamation work should have been completed within 12 Months (9/2/1982). This Site has been out of Compliance Thirty Five Years. Refer to Photos attached.
