**ALLEGED VIOLATION**

Rule: 316B

Rule Description: Mechanical Integrity Test

Initial Discovery Date: \_\_\_\_\_ Was this violation self-reported by the operator? No

Date of Violation: \_\_\_\_\_ Approximate Time of Violation: \_\_\_\_\_

Was this a discrete violation of obvious duration? No

Description of Alleged Violation:

Pursuant to Rule 316B, Petro Mex Resources (Operator) is required to provide notice to the Director on a Form 42 at least ten (10) days prior to conducting a mechanical integrity test (MIT) and submission of MIT results on a Form 21, within thirty (30) days after the test. A pressure chart shall accompany this Form 21 report. Based on Operator's Form 7 Monthly Reports of Operations stating the well has been Shut-in (SI) since February 1999 and COGCC inspections on June 3, 2015 (Document # 675201618); February 5, 2015 (Document #675201169); June 30, 2014 (Document #674700180); and October 19, 2011 (Document #663800058) which documented Well statuses of SI and temporarily abandoned (TA), COGCC staff had reason to believe the Government #6, API 045-06779, (Well) was overdue to perform an MIT. A COGCC inspection on June 16, 2015 documented observations of the MIT conducted on the Well on that date, but no Form 21 has been submitted to COGCC as required by rule. Warning Letter #2193187 was issued to Operator on February 2, 2016 and required corrective action to resolve the delinquent MIT, through proper documentation, by April 30, 2016. A Form 21 should have been submitted by July 16, 2015, but to date Operator has not submitted a Form 21 to COGCC, violating Rule 316B.

Abatement or Corrective Action Required to be Performed by Operator: \_\_\_\_\_ Corrective Action Due Date: 04/30/2016

**Proper and timely abatement does not preclude the assessment of penalties and an Order Finding Violation.**

Operator shall immediately submit a Form 21 for the MIT performed on the Well to COGCC.
