**COGCC Comments**

Comment	User	Date
Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.	CostaR	06/16/2017
Seeding of the disturbed area will need to be performed at the appropriate seeding season but no later than November 15, 2017.	CostaR	06/16/2017
