Detailed description of the issue or issues.	,For the past 3 days, the overwhelming petroleum odor is particularly bad in the late afternoon. Today, I first noticed it when I returned home at 4:30pm. It was still very bad at 7:30pm. But by 8:30pm, the odor was gone. If your COGCC/CDPHE investigators are having difficulty detecting the odor when they do a site visit then PLEASE COME TO MY HOUSE in the late afternoon. In general the odor is present every day at some point (though sometimes its in the morning). Lately, I think you will have the best shot at experiencing it if you come to my house in the afternoon. This is an open invitation. Please come on over.

Type of Complaint (Click all that apply)	Air Quality/Odor
