Representative:

2 ☒ CA# 71357

Corrective Action: Control weeds at the appropriate time but no later than June 15, 2017. Due to the extent of the infestation, it is likely that multiple controls will be needed and followup re-seeding may be needed if desirable vegetation is damaged. If herbicide is used, special care or products may be needed due to the locations proximity to open water.

Date: 06/15/2017

Response: CA COMPLETED

Date of Completion: 05/16/2017

Operator Comment: This location was sprayed for noxious weeds on 5/16/2017 and consistent with WPX Energy's policy. This location will be sprayed again in the fall of 2017 and the spring and fall of 2018. See attached photos.

COGCC Decision: Approved pending re-inspection
