Comment: **The access road and location have not been reclaimed. There is gravel, pieces of lumber and pipe, and various debris which have not been removed. The location has not been recontoured and the soil is heavily compacted. See Attached Photos**

Corrective Action: \_\_\_\_\_ Date **07/21/2017**

Comply with the 1004 Reclamation Rules. Perform noxious weed control. Remove gravel and debris. Recontour and decompact soils by cross ripping to a minimum depth of 18 inches. Install stormwater BMP's and stabilize the disturbed soils with a certified weed free mulch or equivalent method until vegetation establishes.

Overall Final Reclamation

Fail

Well Release on Active Location ☐Multi-Well Location ☐**COGCC Comments**

Comment	User	Date
Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed.	CostaR	06/23/2017
Seeding of the disturbed area will need to be performed at the appropriate seeding season but no later than November 15, 2017.	CostaR	06/23/2017
