Comment

Corrective actions to perform interim reclamation per the previous inspection have been performed. Germination is evident throughout the interim areas and appears to have sufficient germination. Continue to monitor and manage location per Rule 1003 and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels.

It should be noted that it appears vehicle traffic is cutting through a portion of the northeast interim area. Vehicle traffic should not be using this as an access point. Please refer to picture 6 in the attached photo Document #682402257.	binschusc	06/20/2017
