COGCC INSPECTION SUMMARY:

FIR Document Number: 682502088  
Inspection Date: 05/31/2017 FIR Submit Date: 05/31/2017 FIR Status:

Inspected Operator Information:

Company Name: KERR MCGEE OIL & GAS ONSHORE LP Company Number: 47120  
Address: P O BOX 173779  
City: DENVER State: CO Zip: 80217-3779

LOCATION - Location ID: 327317

Location Name: CHAMPLIN 78 AMOCO E-61N65W Number: 35SWSW County:  
Qtrqtr: SWS Sec: 35 Twp: 1N Range: 65W Meridian: 6  
Latitude: 40.003901 Longitude: -104.637102

FACILITY - API Number: 05-123-00 Facility ID: 327317

Facility Name: CHAMPLIN 78 AMOCO E-61N65W Number: 35SWSW  
Qtrqtr: SWS Sec: 35 Twp: 1N Range: 65W Meridian: 6  
Latitude: 40.003901 Longitude: -104.637102

CORRECTIVE ACTIONS:

1 CA# 78567

Corrective Action: All Risers/ Flowlines/ Pipelines must abide by the Phase I of the May 2, 2017 Flowline NTO. Respond when corrective action is complete with date completed and photos attached to an FIRR response to CA. Make sure to identify both endpoints of all Risers/ Flowlines/ Pipelines.

Date: 05/31/2017

Response: CA COMPLETED Date of Completion: 06/13/2017

The above ground riser associated with the plugged and abandoned CHAMPLIN 78 AMOCO E 1 (API

Operator Comment: 0512314491) has been determined to have an operational need to remain in service. The riser is being used as a maintenance and observation point for an existing gathering line. The riser will be abandoned and any additional disturbance area will be reclaimed in accordance with COGCC 1000 series rules once the operational life of the asset has concluded. It is Anadarko's understanding that this midstream gathering line line is not subject to the Flowline NTO (5/2/17) requirements as per conversation between Andy Lytle (Anadarko) and Stuart Ellsworth (COGCC) on 5/31/2017.

COGCC Decision: **Not Approved**

COGCC Representative: This requires a variance request. If variance is submitted, it will be forwarded to engineering to determine, in its current condition and as demonstrated by the inspection photos, that it can be used as a maintenance and observation point. This should have been submitted within the factual review time frame, not as a "corrective action complete" resolution.

2  CA# 78568

Corrective Action: All Risers/ Flowlines/ Pipelines must abide by the phase II of the May 2, 2017 Flowline NTO. Respond when corrective action is complete with date completed and photos attached to an FIRR response to CA. Make sure to identify both endpoints of all riser Risers/ Flowlines/ Pipelines .

Date: 06/30/2017

Response: CA COMPLETED

Date of Completion: 06/13/2017

Operator Comment: The above ground riser associated with the plugged and abandoned CHAMPLIN 78 AMOCO E 1 (API 0512314491) has been determined to have an operational need to remain in service. The riser is being used as a maintenance and observation point for an existing gathering line. The riser will be abandoned and any additional disturbance area will be reclaimed in accordance with COGCC 1000 series rules once the operational life of the asset has concluded. It is Anadarko's understanding that this midstream gathering line line is not subject to the Flowline NTO (5/2/17) requirements as per conversation between Andy Lytle (Anadarko) and Stuart Ellsworth (COGCC) on 5/31/2017.

COGCC Decision: **Not Approved**

COGCC Representative: This requires a variance request. If variance is submitted, it will be forwarded to engineering to determine, in its current condition and as demonstrated by the inspection photos, that it can be used as a maintenance and observation point. This should have been submitted within the factual review time frame, not as a "corrective action complete" resolution.

3  CA# 78569

Corrective Action: Perform reclamation: remove equipment from access road and location, remove gravel from location and access road. Perform compaction alleviation, recontour, regrade access road and location. Manage weeds and establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. Revegetation activities shall be complete no later than 6/30/2017.

Date: 06/30/2017

Response: CA COMPLETED

Date of Completion: 06/30/2017

Operator Comment: Reclamation activities have been performed

COGCC Decision: Approved pending re-inspection

COGCC Representative: Approved pending re-inspection of the FIR resolution acknowledges that the Oil and Gas Conservation Commission has received the Notice. It is not an acknowledgement that the corrective action has been passed. A field inspection will be conducted to evaluate compliance with COGCC standards.

#### OPERATOR COMMENT AND SUBMITTAL

Comment: The above ground riser associated with the plugged and abandoned CHAMPLIN 78 AMOCO E 1 (API 0512314491) has been determined to have an operational need to remain in service. The riser is being used as a maintenance and observation point for an existing gathering line. The riser will be abandoned and any additional disturbance area will be reclaimed in accordance with COGCC 1000 series rules once the operational life of the asset has concluded. It is Anadarko's understanding that this midstream gathering line line is not subject to the Flowline NTO (5/2/17) requirements as per conversation between Andy Lytle (Anadarko) and Stuart Ellsworth (COGCC) on 5/31/2017.  
Reclamation activities have been performed

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
