General Comment:

COGCC Environmental inspection. Well was PA on 4/12/2016, per Well Abandonment Report (doc #401045177). Remediation project #9899 for pit closure was closed on 2/13/2017. Former pit location has been graded and seeded (see attached photo). Partial vegetation in-place doesn't satisfy final reclamation requirements. Facility is being referred to area Reclamation Specialist, Aaron Trujillo.
