Eileen,

I have reviewed Newpek's Fauver 1-20 Form 2A (Doc #401315489). As we discussed a few weeks ago I will change this 2A from Refile to Amend Existing Location ID #445039 as the original Form 2A submitted by Newpek has not expired. Also, I have added the provided Hydrology Map and Location Photos to this Amended Form 2A. Because this Oil & Gas Location is on Cropland, the Reference Area Map and Reference Area Pictures attachments are not required. Therefore, they have been removed from the Amended Form 2A. This Amended Form 2A will not be final approved until after the Public Comment period ends on July 20, 2017.

If you have any questions, please feel free to contact me. Thank you.

Doug Andrews
