Comment: The access road is recontoured and gravel and culverts were removed. There is an electric utility box that remains along the access road and the electric panel at the location was removed. The location is not recontoured. The access road and areas of the location appear to have been seeded and wood mulched. There are signs that noxious weeds were controlled however, there are more noxious weeds beginning to establish. Ongoing noxious weed control will need to be performed. See Attached Photos
