Engineer	Offset water well check: Offset water well check: There are no permitted water wells within one mile of this proposed surface hole location. Operator's geologic prognosis indicates the proposed surface casing will cover the entire Green River formation.  Offset Well Evaluation: Existing offset oil and gas wells within 1,500 feet of this wellbore meet standards. No mitigation required. Offset producing wells completed in the Wasatch are present in sections 23, 25, and 26.	06/30/2017
Permit	Passed completeness.	06/23/2017
