Re: Permitted production pits that were never used for production  
Operator 10084

Jason,

The following pits were permitted as production pits using the Form 15 process, to convert a drilling pit into a production pit. Then the wells never produced so were never used for their permitted purpose. Can you please close out these permit numbers?

<u>permit</u>	<u>well name</u>
288829	NEW MEXICO #21-05
289653	GALLINO #34-18
434928	LONESOME WHISTLE 32-18

Thank you!
