TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment: This location does not meet reclamation requirements; Tank battery location has not had gravel removed, compaction alleviation performed or returned to crop land. Crop growth at disturbed areas adjacent to the tank battery, areas along access road and the well location is stunted and not reflective of the reference areas. This is likely due to compaction concerns. See attached photo document.

Corrective Action:	Perform reclamation in accordance to COGCC 1000 series reclamation rules including, but not limited to, removing gravel and performing compaction alleviation to a depth of 18 inches. Collaborate with the surface owner to determine mitigating measures that will allow reclamation work to be conducted in such a manner as to not interfere with agricultural activities, or crop production. All reclamation activities shall be completed no later than 10/15/2017	Date	10/15/2017
Overall Final Reclamation	Fail	Well Release on Active Location	<input type="checkbox"/>
		Multi-Well Location	<input type="checkbox"/>

COGCC Comments

Comment	User	Date
Collaborate with the surface owner regarding contouring concerns. Location is within flood irrigated crop land and uneven topography created from reclamation activities can hinder uniform irrigation.	trujilloam	07/20/2017
