Date: 7- 20-2017 Time 1100 Hrs

Well Number#: Location #: 336382

Inspection Document #: 688400012

Nature of complaint: Noise

Field Inspector Actions:

On 7-20-2017, I was contacted by complaint specialist Megan Adamczyk in reference to several complaints received by the COGCC about noise occurring in the Erie are of CR 10.5 and WCR 3.

On 7-20-2017, I performed a complete site inspection of the Woolley Becky Sosa location. Upon inspection of the location I observed a flowback operation being conducted by Crestone. I reviewed location records, which did not show any abnormal flow back activity at the time of the complaints. I also reviewed Environmental Noise Control Inc. continuous sound study information which also did not show any exceedance of COGCC rules at the times of the complaints.

All information reviewed and site inspection information were submitted to the complaint specialist for further review.

No violations of COGCC rules were observed at the time of the inspection.
