Comment:

The GPS date of measurement is actual data of the existing well conductor location prior to spud date.

No Open Hole Logs were run on this well. Triple Combination Logs were run on TR 313-21-597 (045-23339).

Wireline tension varies from that of drill pipe due to the difference in the driller depth.

PBTD matches the CBL per Craig Burger.

No top out cement job was done on this well.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
