Inspected Facilities:

Facility ID	Type	Status	Status Date	Well Class	API Num	Facility Name	Insp Status
232332	WELL	PA	01/01/1991	DA	103-40121	CAL-UP 26-E	RI

General Comment:

2017 Flowline NTO Inspection 1000' Buffer. There is No visual evidence of equipment on location. No indication of other facilities (except Well casing) identified with aerial imagery assessment.

This is also a Final Reclamation Inspection for PA Well API#103-40121. There is no record of Spud date or Plugging record in Document files though Scout Card shows PA 1/1/1991. One of the three records in files, that is reporting Planned Work, indicates that no work had been done on the Well since 1953.

Comment: **Status of Well is hard to determine. Casing /Pipe (shown in Photos attached) is relatively new, and has been recently identified with staking & flagging. Operator (Whiting Oil) contacted Inspector to inform that they had marked the Well, it is on their list for determining status, Plugging and Reclaiming.**

Corrective Action:

Date **10/31/2017**

Inspector Name: Colby, Lou

Verify that Well is Plugged and Abandoned or Plug & Abandon Well. Contact COGCC NW Area Engineer to discuss Well status.

Overall Final Reclamation

In Process

Well Release on Active Location ☐

Multi-Well Location ☐
