Well flows to commingled battery with Hi-Land 10G (05-001-08768). All surface equipment and related corrective actions will be identified and called out on this inspections form.	kraicha	08/02/2017
Location, and equipment appears to have not been operated or maintained in some time.		
Location has several unidentified risers inside of separator housing and withing tank berms. See attached photos for descriptions and GPS locations.
