Complaint

Comment: Complaint Received July 31, 2017
Field Inspector Assigned: Jason E. Gomez
Complaint Received:
Date: 7-31-2017 Time 1204 Hrs
Complaint Contacted:
Date: 8-1-2017 Time 0900 Hrs
Well Number#: Location #: 434526
Inspection Document #: 688400026

Nature of complaint: Odor
Field Inspector Actions:
On 7-31-2017, I was contacted by complaint specialist Megan Adamczyk in reference to a complaint received by the COGCC in reference to an odor complaint occurring in the Erie area at the Crestone Peak Resources, Pratt drilling pad.

On 8-1-2017, I performed a complete site inspection of the Pratt location and the neighborhoods south and southwest of the drilling pad. At the time of inspection, I observed Ensign drilling rig 153 on the location performing drilling operation for Crestone Peak Resources. I reviewed location records, which did not show any abnormal drilling conditions at the time of the complaints. As part of my inspection I performed a sweep of the area of the complaints in an attempt to locate any odors off location. At no time during this inspection did I detect any odors off location.

I spoke with Crestone personnel on location they indicated they were still drilling surface holes on location and during this process they were still using fresh water to perform this operation which was confirmed in my inspection of the rig.

No violation of COGCC rules were observed at the time of the inspection of the rig or in the surrounding neighborhoods.

All information reviewed and site inspection information were submitted to the complaint specialist for further review.

Corrective Action: _____ Date: _____

Well Drilling

Rig: Rig Name: ENSIGN 153 Pusher/Rig Manager: _____
