

**photo 1:** Facing northeast toward the former tank battery area.

**photo 2:** There is a pipe riser that remains at the former battery site Lat/Long:39.84499,-104.45152. It appears to have been disassembled since previous inspection however, riser still remains.

**photo 3:** The riser is locked and tagged out.

**photo 4:** Facing east toward the well site. The wheat crop has recently been harvested.
