Complaint

Comment: On 8/3/2017 COGCC received an odor complaint possibly associated with the Crestone Peak Resources, Pratt drilling location. At the time of the occurrence stated by the complainant I was located due south of the drilling location on Alpine Dr. in Erie CO. I noticed an order that appeared to be coming from the identified location. Upon performing a complete site inspection I confirmed that the odor was originating at the Pratt drilling location. I spoke with the Company Man, John Holland, and was informed that all operations had been proceeding in a normal fashion up to the time of inspection. I asked Mr. Holland to increase the amount of odor inhibitor being pumped and to investigate possible causes of odors.

Corrective Action:
