Comment:

	<p>This location does not meet reclamation requirements; insufficient vegetative cover. Sundry Doc. #401338076 dated 7/11/2017 stated surface owner had reseeded the location with a "Sudax Grass" towards the end of June 2017. Grass seeding evident, however establishment was not uniform, and large areas of the location do not show sign that any germination had occurred and remain predominantly bare and unvegetated. Reclamation concerns still remain; location is not progressing towards COGCC 1000 series reclamation standards and require additional work to bring location into compliance. See "COGCC Comments" for additional comments regarding reclamation.</p>	
Corrective Action:	<p>Perform reclamation in accordance to COGCC 1000 series reclamation requirements including, but not limited to, compaction alleviation. Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. Per Reclamation Supervisor D. Arthur, a CA date of 6/30/2017 is being used as this was the last date (indicated by Noble sundry doc. #401338076) that additional reclamation activities had been conducted.</p>	Date 06/30/2017

COGCC Comments

Comment	User	Date
Operator states within sundry doc. #401338076, that surface owner had conducted work post removal of facilities. Operator remains responsible for all reclamation work conducted on the location, and that such work is performed in accordance to COGCC reclamation requirements including by not limited to compaction alleviation (cross-ripping) to a required depth of eighteen (18) inches and all disturbance areas have revegetated to reference area levels.	trujilloam	08/16/2017
Inspection Doc. #682401039 dated 7/14/2016 documented that location does not meet reclamation requirements and required operator to collaborate with the surface owner and submit an agreed upon schedule of reclamation operations. Noble submitted sundry doc. #401101470 on 8/30/2016. Noble did not submit an agreed upon schedule per the corrective action with this sundry, however, Noble did state final reclamation activities will begin on 12/12/2016, with work being completed approximately 12/22/2016.	trujilloam	08/16/2017
In inspection Doc. #682502292 dated 6/20/2017, it was documented that reclamation concerns still remain throughout the location, and it was unclear if additional reclamation activities had been conducted per the 8/30/2016 Noble sundry document. Inspection Doc. #682502292 required operator to submit documentation and invoices for reclamation work conducted as indicated by the 8/30/2016 Noble sundry document.		
Noble submitted sundry doc. #401338076 on 7/11/2017 as per the corrective action. Noble included invoices for work conducted on location. It was noted, however, that no documentation or invoices had been provided that indicated additional reclamation work had been conducted within the month of (or after) December 2016 per Noble's 8/30/2016 sundry document.
