Complaint

Comment: COGCC personnel noticed an odor in the vicinity of 1936 Alpine Drive in Erie CO which appeared to be originating from the Pratt drilling location. Upon inspection of the drilling facility the same odor was observed on the location. Rig personnel were conducting cementing operations at the time of inspection. The Company Man indicated they would increase odor inhibitor in an attempt to resolve the problem.
 Ensign 153 is on location. Derrick screened for fugitive light mitigation. Sound mitigation in place. Chemicals properly stored. Vehicle tracking pads in use. BOPs tested.
