**General Comment:**

This is an orphan well inspection with emphasis on critical maintenance and abandonment. None of the previously identified corrective actions have been performed, corrective actions are still required.

With no current operator this orphan well inspection included portions of May 2017 Flowline NTO to mark and inventory flowline risers. Due to location conditions and with no operator to provide assistance this inventory is informational only and may not identify all flowlines and risers.

See link at end of report for path to downloadable pictures.

**Inspected Facilities**Facility ID: 214054 Type: WELL API Number: 067-05346 Status: SI Insp. Status: SI**Idle Well**Purpose: ☐ Shut In ☒ Temporarily Abandoned

Reminder: \_\_\_\_\_

Comment: TA - Production equipment removed. Review of electronic well file indicates well was SI from January 1999 until December 2013. Well reported as TA since January 2014. No MIT in electronic well file.

Corrective Action: \_\_\_\_\_

Date: \_\_\_\_\_

**COGCC Comments**

| Comment  | User    | Date       |
|--|---------|------------|
| If well is not returned to production tasks will likely include P&A, removal of electrical service equipment, removal/abandonment of 2 flowlines, site clean up, and final reclamation work. | stjohnw | 08/22/2017 |
