Comment: [Location ID 322979 with API 123-12362 appears to meet final reclamation regulations and standards. Unable to find evidence of oil and gas activities and/or disturbances. Well location and access road appear reflective of reference crop areas. Even though the crop was recently harvested, there was enough vegetative growth to evaluate and determine that the location met Rule 1004 standards. Refer to the attached inspection photo for more details.](#)
