SESW Section 19  
Township 01 South, Range 65 West, 6<sup>th</sup> P.M.  
Adams County, Colorado

Dear Director:

PetroShare Corporation is planning to drill the above mentioned well to the Codell & Niobrara formations.

Rule 318A.a of the Colorado Oil and Gas Commission's Rules and Regulations requires wells to be drilled and completed in a square with sides four hundred (400) feet in length, the center of which is the center of any quarter/quarter section or in the center of any quarter section with the four sides being eight hundred (800) feet in length.

The surface locations of PetroShares proposed wells have been staked outside of the 318A.a drilling window. The location is being permitted as an exception location. This location is a good location to both reduce the impact on the surface owner and to increase the number of wells reachable from one well pad to minimize surface disturbance. The exception location waiver for rule 318A.a is included as an attachment.

PetroShare Corporation respectfully request that the COGCC review the enclosed information and approve the requested exception location waiver and Application for Permit to Drill the above captioned wells.

Respectfully,

*Ashley Noonan*
