Date of Completion: 06/30/2017

I did not receive a copy of this notice in time to do a Factual Review because several people on the email listed no longer work here and the engineer did not make me aware of the issue.

Operator Comment: the 45 bbls tank where the berm issue is, does not belong to us. It belongs to Williams Midstream. However, we have cleaned up all of our berms. - See attached photos

COGCC Decision: Approved pending re-inspection

2 ☒ CA# 73092

Operator Comment: See attached photos - the deadman by the meter house is marked with a yellow "T" post within a few feet of the deadman, because Williams Midstream personell, back up their trucks right over the top of the deadman when calibrating or other issues with their meter.

OPERATOR COMMENT AND SUBMITTAL

Comment: The contact information in our system was outdated. Therefore, a few of us that needed to be aware of the Field Inspection, were not notified in a timely manner. I have been working with the foreman and pumpers in order to get all of the information needed, but it took some time. I have updated the contact information at the beginning of this form so hopefully, in the future, we will not be late in our response times. Thank you.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
