Complaint Received:

Date: 8-25-2017 Time 1000 Hrs

Contacted by Complaint Specialist per Complaint Response forms

Date: 8-25-2017 Time 1000 Hrs

Well Number#: Location #: 447233

Inspection Document #: 674200203

Nature of complaint: Noise/ Vehicle Tracking

Field Inspector Actions:

On 8-25-2017, I was contacted by complaint specialist Megan Adamczyk in reference to several complaints received by the COGCC about odor occurring in the Fort Lupton area of the Kerr McGee , Wagner location.

On 8-25-2017, I performed a complete site inspection of the Wagner location and the entrance to the lease road of the Wagner drilling pad. At the time of inspection, I observed a spud rig on the location performing drilling operation for Kerr McGee. I reviewed location records, which did not show any abnormal drilling conditions at the time of the noise complaints. At the time of the inspection Kerr McGee was in the process of repairing the vehicle tracking pad at the entrance of the location and a street sweeper was cleaning the county road.

I performed a noise study approx. 25' from the residence of the complaints south side of her home. During the sound study heavy truck traffic was entering the location to the west of the Wagner location contributing to the noise study. I attached this sound study to the inspection doc #67200203.

I contacted Anadarko and requested a sound study be run in attempt to compare with the study run by the COGCC.

All information reviewed and site inspection information were submitted to the COGCC for further review.
