Comment: This is the second corrective action inspection documenting erosion on the access road. An approximately one foot wide and deep erosional channel is eroding the access road near the well pad entrance. Deep rutting and erosion is occurring in other portions. See attached photos.

Corrective Action: Repair and stabilize erosion along the access road. Corrective action date is based off of when the inspection is submitted and not the inspection date.

Date: 09/30/2017

Pits: ☒ NO SURFACE INDICATION OF PIT
