

Photo 1: View of the project area from the western edge facing south eastward. Revegetation was recently conducted in portions of the interim reclamation area.

Photo 2: View of the southwestern portion of the project area from the western edge facing southward.

Photo 3: View of musk thistles (*Carduus nutans*) in the eastern portion of the project area that appear to have been treated. As many are in seed, subsequent treatments will be needed.

Photo 4: View of Canada thistles (*Cirsium arvense*) within the project area.
