General Comment:

This is an interim reclamation and stormwater inspection. Any corrective actions not addressed from previous inspections are still applicable. COGCC records indicate that the date of first production for these wells is September 15, 2016. Therefore interim reclamation should have been installed in spring 2017. Form 4 document 401134023 indicates that interim reclamation was planned to commence on October 20, 2016.
