Description

	Operator comments within this sundry state "Start date will being 2 weeks after receiving an approved landowner variance request". Operator response is inadequate, Noble continues to be in violation of reclamation rules. Noble has not met the corrective action date of 5/31/2017 (Insp. Doc 682500927) and the extended August 31st 2017 deadline. It was clear in the email from FIU manager that this extended date required Noble to begin reclamation at this time with a fall seeding. A surface owner variance is not necessary for this location and will not be accepted.
