**General Comment:**

Operator has received approval via Form 4 docnum 401337444 to change disposal of drilling fluid from Commercial Disposal to Land Application.

This is an environmental inspection to document status of Land Application of water based bentonitic drilling fluids. Any corrective actions from previous inspections that have not been addressed are still applicable.

Operator has constructed a reserve pit for storage of drill cuttings and fluids (see attached photos). At the time of inspection the drilling pits and land application site were dry.

Operator shall ensure that drilling pit is closed within six months of rig release per Rule 1003.d.

Operator shall ensure that land application of drilling fluid is properly incorporated into native soil within 10 days of receipt of confirmation soil sampling.
