

AC 01-12 API# 05-071-09475

Date: September 14, 2017

Corrective Actions completed regarding COGCC FIR Document # 689900162

**Photo 1:** Facing west along the main road. Installed road base and surfaced crowned the driving surface to establish sheet flow.

**Photo 2:** Access road to AC 01-12 well pad. Installed road base and surfaced crowned the driving surface to establish sheet flow.

AC 01-12 API# 05-071-09475

Date: September 14, 2017

Corrective Actions completed regarding COGCC FIR Document # 689900162

**Photo 3:** Access road to AC 01-12 well pad. Created a water call out to allow water to drain from the roadway surface to the west side of access road.

**Photo 4:** Access road to AC 01-12 well pad. Run off is diverted to an armored swell toward the culvert inlet.

AC 01-12 API# 05-071-09475

Date: September 14, 2017

Corrective Actions completed regarding COGCC FIR Document # 689900162

**Photo 5:** Access road to AC 01-12 well pad. Created sheet flow from the access road to drain water from the roadway surface to the east side of the access road where the existing armor on the culvert outlet side will be utilized for erosion control.

**Photo 6:** The noxious weeds (Bull Thistle) were removed and bagged on 08/28/17.
