CORRECTIVE ACTIONS:

1 CA# 86584

Corrective Action: Since the spring seeding window has passed, revegetation activities shall be complete no later than 11/15/17. The following shall be performed by 8/15/17: Remove gravel from location and access road, perform compaction alleviation, recontour/re-grade access road, perform compaction alleviation, and manage noxious weeds. Ensure temporary stabilization controls are in place until revegetation activities can occur later in the Fall. See COGCC comments for additional corrective actions regarding revegetation.

Date: 08/15/2017

Response: CA COMPLETED

Date of Completion: 09/14/2017

Operator Comment: Land owner variance is in process.

COGCC Decision: **Not Approved**

COGCC Representative: COGCC acknowledges Noble's intent to pursue a variance. However, COGCC is unable to approve this resolution as the response of "Corrective Action Complete" indicates that the corrective actions from the inspection report have been addressed. Based on Operator comments within this resolution this does not appear to be the case.

Please note that until a variance request has been submitted, corrective action(s) and date(s) remain applicable. COGCC can not assume the Operator will submit a variance request. Until an official request has been submitted, COGCC will continue with business as usual, including follow-up inspections. Also, be aware that a submission for a variance request does not guarantee approval; corrective action(s) and action date(s) would remain applicable until resolved if request is denied.
