 VEGETATIVE COVER \_\_\_\_\_

Comment:

The previous inspection required the Operator to perform final reclamation activities in accordance to Rule 1004. Little to no germination of desirable species were observed throughout most of the reclamation area. Operator may need to perform additional reclamation activities in the future if the location does not have more germination establishment. Continue to monitor and manage this site until Final Reclamation has passed pursuant to Rule 1004 standards. A follow-up inspection will occur at a future date to ensure the location meets Rule 1004 standards. Refer to the attached inspection photos for more details.
