Abigail,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comments.

- 1) In the Water Resources section Bison Oil & Gas has listed an estimated the depth to groundwater of 13 feet. Based on this, I would like to change the answer to the question concerning being in a sensitive area to YES on the Form 2A.
- 2) The Location Drawing depicts what appears to be the sediment basin in the southeast part of the proposed Oil & Gas Location. However, this feature is not labelled. Please have the Location Drawing revised to label this feature and I will swap it out on the Form 2A.

Please respond to this correspondence by October 21, 2017. If you have any questions, please contact me. Thank you.
