Commission**

Department of Natural Resources

Inspection Photos
Location Name: Critter Creek /15
Location ID: 444164

Photo 1. Photo taken from the southeast location, facing East. Appears Operator may have installed a sediment trap but pipeline disturbance has damaged BMPs.

Photo 2. Photo taken from the southeast location, facing West. Photo illustrates pipeline construction and disturbance. Temporary BMPs (straw wattles) appear to be installed between the water line and the unconsolidated soil material.

Inspection Photos
Location Name: Critter Creek /15
Location ID: 444164

Photo 3. Photo taken from the eastern topsoil stockpile, facing West. Russian thistle has established throughout the stockpile which is not protective of topsoil per Rule 1002.c. and Russian thistle is considered weed debris which needs to be controlled per Rule 603.f.
