 VEGETATIVE COVER \_\_\_\_\_

Comment:

Corrective Action:	<p style="color: red;">Establish vegetation with total perennial, non-invasive uniform plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture requested by the surface owner, or a mixture prescribed by the local county NRCS. Ensure erosion controls are implemented to stabilize the seeded soil, and continue to monitor and manage this site until Final Reclamation has passed. The prime timeframe for a 2017 spring seeding has passed, revegetation activities shall be complete no later than 11/15/2017 in order to take advantage of a fall seeding.</p>	Date	11/15/2017
