

Photo 1: View of the project area from the southeastern corner facing center.

Photo 2: View of the southern portion of the project area from the southeastern corner facing westward. Revegetation is weedy and largely vegetated with cheatgrass (*Bromus tectorum*), as well as desirable species such as western wheatgrass (*Pascopyrum smithii*) and crested wheatgrass (*Agropyron cristatum*).

Photo 3: View of the eastern portion of the project area from the southeastern corner facing northward.
