Randy,

COGCC has not received correspondence from Grynberg regarding the resolution of Conor Pesicka's Inspection Doc#684903834 or the resolution of Remediation Project #10043 discussed in the emails below. Please provide a status update regarding the corrective actions required in both the inspection and the Remediation Project.

Thank you,
Rick

Good afternoon Rick,

We are planning on commencement of the operations to remove the oily waste from the Graefe 1 location on Tuesday June 27. If there is any additional items you need before we please contact me. Grynberg will gather samples for comparison to COGCC Table 910-1 values and document such samples sites as outlined in the Form 27 COA.

Please do not hesitate to contact me if you have any questions or I can help you meet your goals.

Thanks and have a great weekend,

Randy Edelen, P. E.

Subject: Re: Graefe 1 location work

Randy,

What is the status of this project? A report on work completed and analytical results for confirmation soil sampling was due by April 10, 2017 per the conditions of approval on the attached Form 27. COGCC has received no reports regarding implementation of the approved Form 27. In addition, Conor Pesicka's recent inspection (Inspection #684903834) indicates that work to remove oily waste has not started at the location.

Please begin immediate implementation of the Form 27 and provide COGCC status updates as work progresses.

Thank you,

Rick

Good morning Rick,

We are currently waiting on fiscal approval to complete this work. Vendors have been selected and reviewed the site and scope of work. Work will commence as soon as approval is granted.

Please do not hesitate to contact me if you have questions or I can help you meet your goals.

Thanks,

Randy Edelen, P. E.

Richard or Randy,

Can you give me an update about what is going on at the Graefe 1 tank battery?

Thank you

Rick

Richard,

Thank you for the update. I will keep in mind that I may visit the location mid-week next week. However, do not let my schedule delay your site work.

Rick,

We met on location yesterday and completed all corrective actions except weeds, Berms and stained soils. I hope that we can mobilize equipment next week and resolve these remaining issues.

We will give you as much notice as possible so that we can arrange for a mutually convenient time for you to witness our operation.

I am answering your email since Randy is at the COGCC operators meeting this morning.

Thank you,

Richard Miller

Randy

Thank you for the information. I have time later in the week to make a site visit - possibly Thursday or Friday.

Let me know if the schedule changes.

Rick

Good afternoon Rick,

Grynberg Petroleum Company has contacted a roustabout company and we will be commencing operations to address the corrective actions from inspection 684901699. Grynberg personnel will be on location Monday February 13 at approximately 1:00 pm to plan operations. Grynberg's preliminary estimate is to start excavations of the stained soil on Tuesday February 14.

Please do not hesitate to contact me if you have any questions or I can help you meet your goals.

Thanks,
