General Comment:

Originally submitted as F-4 on 1/4/2013 but never processed by COGCC. Re-submitted Sept 2017. Location is P&A. This was a blowdown pit with no permit required and may have never been used. Pit was sampled in 2012. Confirmation samples were Table 910-1 compliant. Pit remains open ~10X10ft by 3 ft deep at SW corner of pad. Some weed growth in pit. No indications of petroleum contamination such as staining or odor. Sl. Pad is level with marginal regrowth. Backfill pit with clean fill. At least two steel eye deadmen remain on location-remove. In addition, the surface area shall be reclaimed in accordance with the 1000 Series Reclamation Rules and BLM specifications.

A second pit 10x10x6 is adjacent to a pipeline riser next to the road. If pit and or riser are Bayless flow line fixtures, backfill pit and if not in use, ensure that line is properly abandoned in accordance with COGCC rules.
