Hi Brad,

On June 14, 2017, SRC Energy, Inc. reported a release discovered at the SRC Energy Eldridge 4-23 location (Location ID 323547) during the removal of the production equipment at the location, and COGCC assigned Spill ID 451116. COGCC reminded SRC Energy of the requirement to submit a Form 27 Site Investigation and Remediation Workplan for the removal of a partially buried produced water vessel in accordance with Rule 905.b. COGCC requested the Form 27 be submitted by September 12, 2017. To date no Form 27 for this release has been received by COGCC. Without further delay, submit a Form 27 for this location with the results of the groundwater investigation and a proposed remediation plan.

Contact me with any questions.

Regards,

Richard Allison, P.G.
