VEGETATIVE COVER \_\_\_\_\_

Comment: [Inspection #682502442](#) documented that growth at the battery location is not uniform, and stunted when compared to that of the reference area, and required operator to perform additional reclamation. It was noted that issues maybe due to compaction concerns. Unable to find evidence that additional reclamation activities have been conducted per the corrective actions. Original corrective action and corrective action date remains applicable.

Corrective Action:	Perform additional reclamation on in accordance to COGCC 1000 series reclamation requirements and standards. To allow time for Noble to collaborate with the surface owner and determine mitigating measures that will allow reclamation work to be conducted in such manner as to not interfere with agricultural activities or crop production, and to allow time for Noble to identify the issues hindering crop growth, all additional reclamation activities shall be completed no later than September 15th, 2017	Date	09/15/2017
Overall Final Reclamation	Fail	Well Release on Active Location	<input type="checkbox"/>
		Multi-Well Location	<input type="checkbox"/>
