Gentlemen:-

Referring to your letter regarding the well for oil that was drilled in 1954 on the Schleicher.

This well has not been abandoned we have the well capped and at the present time we have some company interested in drilling further down.

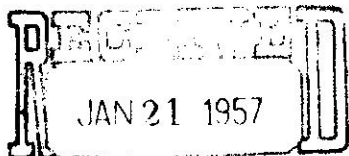

I know nothing about the details of the drilling operations so am in no position to filling in the forms you sent me.

We have a bond on the well to plug it when we abandon it.

Yours Truly

Harry C. Schleicher
