CORRECTIVE ACTIIONS:

1 CA# 94256

Corrective Action: Remove equipement and perform reclamation in accordance to COGCC 1000 series reclamation rules and requirements. Date: 08/10/2017

Response: CA COMPLETED Date of Completion: 10/25/2017

Operator Comment: The remaining Kerr Mcgee riser was abandoned 10/25/17. BCEOC is preparing the reclamation variance to leave the 0.2 acre parcel for agricultral storage at the landowner's request.

COGCC Decision: **Not Approved**

COGCC  
Representative:

Operator response of "Corrective Action Complete" indicates that the corrective actions requiring reclamation have been addressed. Operator has not provided documentation showing work has been conducted and comments within this resolution suggest that the corrective action requiring reclamation has not been completed.

COGCC acknowledges Bonanza Creek's intent to pursue a variance. Operator has been aware of the requirements for a 502.b variance to not perform reclamation since July 10th, 2017. As of November 7th, 2017 no 502.b variance has been submitted by the operator, or approved by the COGCC.

COGCC can not assume operator will submit a variance request and until a 502.b variance has been submitted/approved, the location will remain subject to COGCC reclamation rules and requirements. This is being referred to enforcement.
